THE KANSAS CITY STAR EDITION

Is absolutely the only one that will truly satisfy you of this MASTERPIECE of the WORLD'S LITERATURE.

SIZE OF EACH VOLUME IS 11 INCHES LONG, 9 INCHES WIDE, ABOUT 2 1-2 INCHES THICK; WEIGHT ABOUT 5 POUNDS EACH.

The above is an illustration of the great STAR edition of the Encyclopedia Britannica, now offered for a limited time to our readers at such nominal figures. The volumes are handsomely and substantially bound, more strongly than the expensive Edinburgh Edition, which costs \$8 per volume. The type is large size and the paper is of excellent quality and strength.

The edition we offer to our readers comprises many features worthy of special mention. Not only are all the scientific and historical subjects brought absolutely up to date, but a vast fund of new information is added, relating to the material, social, industrial and educational progress of the world, together with many thousand new biographies not in the original edition nor in any other encyclopedia.

1. A thorough equipment of New Maps, up to date, costing \$30,000 to produce.
2. The American copyrighted articles, re-written to date by eminent American writers, with new matter added. In other respects this edition is word for word, line for line, page for

page, identical with the expensive Edinburgh Edition, costing \$8 per volume.

3. But the crowning feature of this edition is its American revisions and additions, prepared under the direct supervision of that widely known Encyclopedic editor, W. H. DePuy, D. B., LL. D., assisted by a corps of trained writers, thoroughly revising each of the 25 volumes up to date.

4. A Guide to Systematic Readings for the boys and girls, the student and the busy world, including all professions, trades and commercial pursuits.

5. A Membership to the Home University League, which entitles you to the equivalent of a College or University Education at home.

6. One year's membership to "Self Culture" Magazine, a monthly periodical which furnishes a system of monthly lessons and instruction and serves as a living supplement to the Britannica by treating of new inventions, new ideas, scientific and literary topics.

UNIVERSITY EDUCATION FOR A SONG.

The Age of Culture is here! It is now! Thousands of our readers have already joined this educational crusade and none but are well pleased. It is found to be a Wonderful Economy in every way as well as practical, which is important. Bear in mind that a few cents a day only secures the immediate delivery and possession of the entire equipment of these College or University advantages at home. All may join! Young or old, act in the present! Time is your Capital.
